# Dalarö Hembygdsförening

Dalarö Local History Association offers cultural walks in the small community with a traditional archipelago environment. Here, exclusive villas stand side by side with small 18th-century farmhouses. Cliffs and sandy beaches, which made Dalarö a popular seaside resort around the turn of the last century, still remain. Here in the village, among others, the artist Anders Zorn and the writer August Strindberg have taken inspiration.

Dalarö is a picturesque archipelago community that is known for its special environment and buildings.

Among the sights are the Seurahuone with its current exterior from the 1860s and the beautiful wooden church from 1652.

The customs house built (1787-88) by King Gustaf III from drawings by Erik Palmstedt. Tullhuset is a historic building that, in addition to Dalarö Local History Association, houses, association premises, archipelago museum and restaurant.
